

Habeeb Ishola

I build responsive, user-friendly experiences for the web

hoishola973@gmail.com | +31 681 097 374 | Netherlands | hoishola.com

SUMMARY

Frontend developer who enjoys figuring out how things work and building things people actually want to use. Background in operations and coordination, bringing strong organizational habits and attention to detail into building clean, responsive web applications. Self-taught in HTML, CSS, and JavaScript.

RELEVANT PROJECTS

Personal Portfolio Website

2026

- Designed and built a responsive personal portfolio from scratch using HTML, CSS, and JavaScript, including hover animations, smooth-scroll navigation, and a dark themed UI.
- Deployed and version-controlled using Git and GitHub, with hosting via Netlify and a custom domain.

Pomodoro Timer

2026

- Built an interactive Pomodoro timer with start, pause, and reset controls, and automatic switching between focus and break sessions.
- Added a settings panel for customizable session durations and a task manager with add/delete, persisted using Local Storage.
- Deployed via GitHub Pages, with a fully responsive layout across devices.

SKILLS

Programming Languages

HTML, CSS, JavaScript

Tools & Platforms

Git, GitHub, Supabase, Netlify, Figma

CURRENTLY LEARNING

Strengthening JavaScript through hands-on projects, with React up next.

EDUCATION

Wittenborg University of Applied Sciences

Information Management

INTERESTS

Reading, swimming, and continuous learning in web technologies.
